**DOCTORS makeover** All clients attending our clinic will benefit from a free initial consultation to establish the best treatment for them and answer any queries they may have. If you are not sure whether cosmetic treatment is for you, simply make an appointment with our team to discuss different available options.

**DOCTORS makeover** We're here for men too .... Cosmetic treatment is as effective for men as for women.....

**DOCTORS makeover** This brochure gives you an overview of some of our services at **DOCTORS makeover** for women and men.

### **DOCTORS makeover** Injections for Fine Lines and Wrinkles

**Botox** is used to soften lines and reduce wrinkles. **Dermal fillers** are used for deep folds and wrinkles, scars, volume defects and contour enhancement. There are many brands of Botox and fillers which are produced by different countries but we only use high quality BOTOX® by Allergan and fillers such as Restylane, Sculptra etc by reliable suppliers to our clinic....

### **DOCTORS makeover** Skin Rejuvenation and Hair and Vein Removal

**Bioskin Sonolight** is a painless and non-invasive procedure which precisely removes epidermal skin, layer by layer, stimulating the regeneration of new, healthy skin. It is designed to tackle superficial and deep wrinkles of the face, the "crow's feet", around the eyes, wrinkles between the brows and the forehead, lines on the upper lip and those created by smiling.....

### **DOCTORS makeover** DeaLight Intensive Pulsed Light (IPL) Technology

is a treatment breakthrough that can deal with a variety of skin imperfections: such as unwanted hair, age spots, freckles, unsightly small veins, enlarged pores, acne and rosacea.....

### **DOCTORS makeover** SmartEpil LS Nd:YAG laser Technology

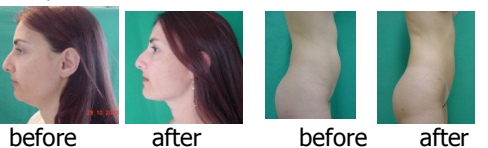

is a simple and painless solution for treatment of thread veins. After treatment the client can return to normal activities immediately. This advanced laser technology is also used for removal of unwanted hairs and other conditions, such as pigmentations....

### **DOCTORS makeover** Fat Reduction

**Smartlipo Laser Lipolysis System** is an innovative advanced laser technique which melts down the excess fatty tissues. No matter how fit and active we are, or how carefully we watch what we eat, many of us have those stubborn areas that just won't go away. It might be your tummy, jawline / jowl, back and underarms, hips, knees and any other cellulite. It is an effective procedure which is safer and less invasive compared with the traditional liposuction.

**DOCTORS makeover** is one the first clinics in the United Kingdom to offer this innovative treatment to its clients.....

**DOCTORS makeover** **Biocelase** is a state of the art technology to fight cellulite, fat store and loss of skin tone (laxity). It combines multiple modes of action: Ultrasound, Vacuum Massage, Laser and Cooling....

- Ear Correction Surgery
- Abdominoplasty - Tummy Tuck
- Liposuction

We enjoy the service of at least two Consultant Plastic Surgeons in our clinic, Mr Amedeo Usai and Mr Davood Fallahdar both of whom hold full GMC registration and they are on the Specialist Registered List of Plastic Surgeons in the United Kingdom. They are also members of the Italian Plastic Surgeons Association and practiced as plastic surgeons in that country for many years. However, the overall responsibility lies with Mr J Taghipour.

After your free initial consultation if we feel that, for any reason, your procedure could not be safely and effectively undertaken under local anaesthesia at our clinic, our plastic surgeons will undertake your operation under general anaesthesia in a well-equipped London private hospital.

## Female Breast

There are many ways for a natural enhancement of breasts (**Breast Augmentation**) but significantly enlarged breasts is done through inserting a prosthesis or implant which come in various shapes, sizes and materials and your surgeon will discuss with you.....

On the other hand **Breast Reduction & Lift** are similar surgical procedures but in breast reduction apart from raising and reshaping the sagging breasts the surgeon also reduces the volume of breasts.....

## Male Breast

In men, enlarged breast is due to excess of breast tissues (Gynaecomastia). It is treated in our clinic by our revolutionary in house laser lipolysis **Smartlipo** which is designed to selectively melt down the fat and finally reduce the size of the breasts with a firm, smooth and even contour .....

before

after procedure

## Face

There are varieties of facial surgical techniques to suit each individual person. The shape, size and form of the chin, nose, ears, cheeks, lips and eyelids could be altered to reshape the face.....

surgery

before

after

(blepharoplasty)

Nose (Rhinoplasty)

## Abdomen

We could successfully treat the excess fat from the abdominal wall of bulging stomachs with our revolutionary **laser lipolysis Smartlipo** in our clinic under local anaesthesia. The laser also tightens the loose abdominal skin .....

before

after

**Traditional liposuction** is a more invasive procedure which is usually carried out under general anaesthesia. The excess loose, folded skin around the abdomen could be removed in 'tummy tuck' or Abdominoplasty.....
